---

## Professional Summary

Detail-oriented RPA Developer with a strong foundation in UiPath, Python, C#, SQL, and data analytics tools. Skilled in building automation workflows to streamline business processes and reduce manual work. Passionate about applying automation and data-driven solutions to improve efficiency and decision-making.

---

## Internships

**ITP Training Program – ITI (Business Analysis & RPA Automation Track)** | July 2025 To Nov 2025

- Completed intensive 582-hour training program combining technical, analytical, and business skills.
  - Developed automated workflows using UiPath Studio to streamline business processes.
  - Trained in Business Analysis methodologies including requirements gathering, process modeling (ARIS), and Agile.
  - Acquired skills in SQL Server, Microsoft .NET, XML, JavaScript, Angular, HTML, and CSS.
- 

## Experience

**Business Consultant (Property) – Bold Routs, Egypt** | Dec 2024 – Jun 2025

- Supported clients with property sales and rentals while improving communication and negotiation skills.
- Assessed market trends, evaluated property values, and provided data-driven recommendations.

**Freelance Data Analyst – Remote** | Jun 2024 – Present

- Conducted data cleaning, transformation, and visualization using Excel, Python, and Power BI.
  - Delivered actionable insights and automated reporting workflows for clients across various industries.
- 

## Projects

**RPA Challenge Bot** | UiPath Studio

Automated data entry workflow with dynamic selectors and data scraping techniques, achieving high accuracy and speed in processing multiple records from Excel to web forms.

#### **ACME System Automation** | UiPath Studio, Orchestrator

Built end-to-end automation for ACME System 1 to extract work items and process business data, implementing REFramework for robust exception handling and integration with Orchestrator queues.

#### **Automated Crypto Report** | UiPath Studio

Built an automated daily crypto report using UiPath, integrating REST API data into a structured Excel dashboard to support data-analysis workflows, applying REFramework principles with clean modular design, logging, and robust error-handling.

---

## **Technical Skills**

**RPA Tools:** UiPath Studio, UiPath Orchestrator

**Programming:** Python, C#, SQL, R

**Visualization:** Power BI, Excel, Tableau, Pandas, NumPy, Matplotlib

**Databases:** PostgreSQL, MySQL, MS SQL Server

**Machine Learning:** Scikit-learn, TensorFlow, Keras, Linear Regression

**Tools:** Git, GitHub

---

## **Education**

### **Bachelor of Computer Science — Kafr Elsheikh University** | Jul 2019 – Aug 2022

- Graduation Project: Built a deep learning model using TensorFlow to detect plant diseases from leaf images. Integrated the model into a mobile app using Flutter and Firebase API.
- 

## **Certifications**

- Automation Developer Professional Training (v2024.10) – UiPath (2025)
- UiPath Academy Automation Business Analyst Associate Training – UiPath (2025)
- Data Analytics Job Simulation – Deloitte (2025)
- Building Business Reports Using Power BI – 365 Data Science (2024)
- Power BI – 365 Data Science (2024)
- Introduction to Python – 365 Data Science (2024)
- SQL Intermediate – HackerRank (2024)
